

Collie Health Foundation 2022 Tests

Responsible Collie breeders will want to take advantage of the health tests and be involved in ongoing studies that can be done for Collies you want to breed so that you can be sure that the dogs you produce have the best chance at a long, happy life. Any Collie owner who has a dog that has not been tested may wish to participate in these tests. These tests are currently available.

ALL TESTS ARE FOR PUREBRED ROUGH AND SMOOTH COLLIES ONLY OWNED BY THE MEMBER.

Test Name	Description	Testing Organization	Regular Price	Method & Test Ordering Instructions	Website
Optimal Selection™ Test	Results for 200+ genetic diseases, of which 7 are reported in terms of known relevance to the Collie. Testing includes MDR1, DM, CEA, coat color, coat type and morphology. Genetic diversity information for the tested dog, the overall breed population and related breed groups. (At this time CCN (Gray Collie) is not included in the test.)	Wisdom Health	\$130 less a 15% discount negotiated by CHF with Wisdom Health. Valid to 12/31/22 CEA is now being offered as a part of the test. No additional subsidies will be offered in 2022.
